

**DATA CHART**  
**SCIENCE – Second Marking Period**  
**Dr. Fatolitis**

**NAME** \_\_\_\_\_  
**SUBJECT** SCIENCE

INSTUCTIONS						
#	Date	Item/Assignment	Points Earned	Points Possible	Total Points/ Total Possible Points	Current Average
			What grade did you receive?	How much was the assignment worth?	Divide as if a fraction the total possible points ÷ by the points on the assignments.	The quotient by the dividing the dividend by the divisor.
EXAMPLE						
1	3/21	Tutorial Request Form	20	25	$\frac{20}{25}$	80%
2	3/30	AVID Binder Check	85	100	$\frac{105}{125}$	84%
3	4/3	Essay Assignment	36	50	$\frac{141}{175}$	80%
Note: As each assignment is entered, points earned, and possible points are added to the previous assignment.
